

WHAT IS CLAIMED IS:

1. A combustible shaped ammunition part wherein the combustible shaped ammunition part contains an erosion-reducing admixture, comprising an erosion-reducing agent which is an oxide of one of the elements of rare earth or one of the elements of the 6th subgroup in the periodic system, or a poly oxy methylene (POM).

2. A combustible shaped ammunition part according to claim 1, wherein the erosion-reducing agent is La_2O_3 , CeO_2 , or Y_2O_3 .

3. A combustible shaped ammunition part according to claim 1, wherein the erosion-reducing agent is MoO_3 or WO_3 .

4. A combustible shaped ammunition part according to claim 1, wherein the shaped ammunition part contains 2 to 15% of one or more erosion-reducing agent(s).

5. A combustible shaped ammunition part according to claim 2, wherein the shaped ammunition part contains 2 to 15% of one or more erosion-reducing agent(s).

6. A combustible shaped ammunition part according to claim 3, wherein the shaped ammunition part contains 2 to 15% of one or more erosion-reducing agent(s).

7. A combustible shaped ammunition part according to Claim 1, in the form of a propellant case or a propellant charge container.

8. A combustible shaped ammunition part according to Claim 2, in the form of a propellant case or a propellant charge container.

9. A combustible shaped ammunition part according to Claim 3, in the form of a propellant case or a propellant charge container.
